*What Your Tailor?*

## Clothes of Pedigree

If you were buying an expensive picture you'd probably be very careful about its pedigree—where it came from, the kind of reputation the artist had, all about it generally.

Your spring clothes ought to be bought the same way. If you have them made-to-individual measure by our famous Chicago tailors,

### SENATE PASSES INDIAN APPROPRIATION BILL

Washington, Feb. 25.—Carrying approximately \$13,657,852, of which \$10,095,952 is appropriated out of the treasury, the remainder being reimbursable items, the Indian appropriation bill was today passed by the senate. The measure as passed almost doubles the appropriations authorized by the house. The senate increased the house appropriations for the suppression of liquor traffic among the Indians, the construction of hos-

## ANOTHER MADERO REPORTED KILLED

RUMORS SAY HE WAS OVERTAKEN AND KILLED IN NORTHERN MEXICO.

City of Mexico, Feb. 25.—Emilio Madero, a brother of the late President, has been shot and killed near Monterey according to reliable information received here.

With an escort of thirty-five men, Madero, it is said, was attempting to join the rebels holding Nuevo Laredo when he was overtaken by troops sent by Gen. Trevino.

The reports do not indicate whether Madero was killed in action or was executed. The shooting took place between Villadama and Baustamante.

As the rebel leader in the Laredo district, Geronimo Villareal is a partisan of Gen. Trevino, the government

## COMMITTEE SCORES

### STOLPER'S CONDUCT

Oklahoma City, Feb. 26.—The prosecution of Dr. J. H. Stolper or alleged extortion, misfeasance and malfeasance in office is recommended by the general investigation committee of the house in a sensational report Tuesday regarding the official conduct of the former public defender in the office of Miss Kate Bernard, commis-

sioner of charities and corrections.

The committee does not mince words in dealing with Dr. Stolper, stating that evidence developed before the committee shows acts in connection with the pardon of the Silvas which amount to extortion. The committee asks the county attorney of Pittsburg county, the former home of Dr. Stolper, to bring criminal charges against the attorney and calls the attention of the county attorney of Oklahoma county to the evidence, suggesting that he file information against Stolper for misfeasance and malfeasance in office or such other charge as he considers the evidence warrants. The committee states that all the evidence taken for the benefit of the legislature is available to the prosecuting officers.

### SENATE REFUSES TO VALIDATE LAND TITLES

Washington, Feb. 25.—An amendment to the Indian appropriation bill which would have validated thousands of transfers of lands by members of the five civilized tribes in Oklahoma prior to January 1, 1912, was defeated in the senate on a point of order by Senator Lodge.

The weather man says it will turn colder tonight and remain so tomorrow. It is earnestly hoped that he missed his guess this time.

pitals for the treatment of Indians and the improvements of Indian schools. Several irrigation projects are provided for. A heated attack on the proposal to transport the Apache Indians now held prisoners of war on the Fort Sill military reservation in Oklahoma into New Mexico and Arizona was made by Senator Fall of New Mexico. He offered an amendment prohibiting the use of funds in this manner. Three points of order were made against the amendment, but all of them were withdrawn upon the appeal of Senator Fall. Senator Owen finally renewed the point, and the amendment offered by Senator Fall was not adopted.

## WILL GET REWARD FOR FRANCIS BANK ROBBERS

Okmulgee, Okla., Feb. 26.—Officer Patty of Okmulgee, and Officer McVay of Henryetta will divide a reward of \$2,000 offered by the Bank of Francis, Okla., for the arrest and conviction of the men who attempted to rob the bank last November. The men, T. L. Foster and Andro Degino, were convicted in the district court and sentenced to six and four years, respectively, in the penitentiary. The two officers who will share the reward have been working on the case for some time.

## DICK EXPLAINS NATURE OF \$2,000 CHECK

Oklahoma City, Feb. 26.—That the \$2,000 check given him by John M. Wheeler of the Pauly Jail company was a loan to help defray the expenses of the primary campaign of 1910 which resulted in the election of Governor Cruce, was the testimony Tuesday of Warden R. W. Dick before the senatorial investigating committee probing into charges of alleged graft in the McAlester penitentiary. Dick stated that Layton and Smith, architects of Oklahoma City, had contributed to the fund and that when he went to Wheeler and the other firm he told them he would use his influence with the governor to remember his friends, and not reward his enemies.

Dick stated that at first Wheeler demurred, but when he was told that Layton and Smith had put up \$4,000 he agreed to give his check on the basis that he would be reimbursed pro rata should further collection make this possible. He explained that the check had been given September 16, after the 1910 primary in order to take up a part of the note with the State Bank of Capitol Hill which had been assumed by John B. Doolin, John Williams, Lon M. Frame and Dick, and relieve the campaign deficit.

The witness explained why he had hesitated in answering about the \$2,000 check at a recent hearing, having confused in his mind another deal with Wheeler. He stated that he and Wheeler had figured on buying a flat building in Oklahoma City in which \$8,000 was necessary. He said his wife had shortly before become the beneficiary of the estate of her mother in Texas and had inherited \$4,000. Wheeler had agreed to put up \$2,000 and wrote a check for this amount. Mrs. Dick, however, objected to Wheeler being in the transaction as he was a stranger and the check was returned and torn up by him. Dick testified that at the time the committee first asked about Wheeler's check he had forgotten what had been done with the check in the flat transaction.

### With the Boxers.

Jack Dillon and Jimmy Clabby, the two clever middleweights, have received offers to go to Paris and box.

Spike Robson, the ex-champion bantam-weight of England, plans to make another visit to this country.

Charley Thomas, the Philadelphia boxer, who has been in Paris for several months, has returned after a successful campaign.

John Townsend, a London boxer,

was fined \$5.50 in that city the other day for boxing as an amateur, whereas he was a professional.

Frankie Conley, who is in Mexico, declares that he will become a professional bull fighter in the near future. This sounds like a "bull" is mixed up in it some where.

### ADA COMMERCIAL CLUB.

In another day or two the state will know the fate of Giles Farris, now on trial before the senate. The trial has consumed some valuable time, and the outcome is awaited with interest.

Judging from newspaper reports brick plants all over Oklahoma are complying with the request to send a brick by parcel post to build a brick house at Chicago. However, it is doubtful if any of these will be any better than the one sent from the Ada plant.

Mrs. Pankhurst, the fighting suffragate leader of England, has been arrested for having a hand in the blowing up of Lloyd-George's house. This time the charge promises to be something more serious than mere window smashing. She may be called upon to give her martyr spirit a real test.

It now begins to appear as if the next event of importance that will transpire in Mexico will be the triumphal entry of former President Diaz. The same crowd that heaped insults upon his head when he took his departure from the capital into exile two years ago will now shout itself hoarse in acclaiming his return. The armed terror in which he held Mexico was found more tolerable than the anarchy that has prevailed since the reins of power were wrenched from his hands by Madero.

Madero is another man who came to grief because he thought he knew more than his father. The old man tried his best to keep his son from launching the revolution that overthrew Diaz, but the young man thought he knew what he was about. When he landed in the presidency he probably thought he had proved the old gentleman was off his base, but it does not look that way now. The elder Madero believed in letting well enough alone, and any one will admit at this late day that his course was the wise one.

Some of the regular army officers safely entrenched at Washington, have expressed the opinion that Gov. Colquitt's action in mobilizing the Texas militia was something of a grand stand play. Had these same officials been as thoroughly informed of conditions as was Colquitt and had stationed more regular troops along the border, it would not have been necessary for the Texas governor to take any such action. He knew that the situation was one demanding instant action and he took the only course open to him at the time.

## HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Cornum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help. I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it." Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health. It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical. Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women. In every community, there live some who have been benefited by Cardui. The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways. Try it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

The commissioners of Coal county recently abolished the office of undersheriff, and as a result the sheriffs of other counties, as well as local people, are finding the new arrangement very unsatisfactory. In course of his duties a sheriff has to chase about as many criminals from other counties as from his own, and when there is no one in the office it is hard to find the sheriff with a phone call. With the undersheriff to direct matters in his absence, it is very often easy to locate the sheriff or some deputy who can look after the urgent business in hand. As stated above, the other sheriffs are having some little trouble on account of the present state of affairs in Coal county, although the sheriff down there is a hustler.

In tomorrow's paper the complete list of members of the Commercial Club will be published. If your name is not in this list, why not?

## HOUSE INVESTIGATING INSURANCE COMMISSIONER

Oklahoma City, Feb. 26.—It is understood upon the best authority that the Maxey investigating committee has found matters very seriously involving State Insurance Commissioner Perry A. Ballard, and will make a report to the house of representatives Wednesday or Thursday recommending that the impeachment committee take up the case.

It is also understood that the grand jury now in session has taken some testimony said to incriminate the insurance commissioner.

The testimony involving the state insurance commissioner in the official scandal is understood to have developed recently so far as the legislative investigating committee is concerned, and the committee is still to hear other witnesses in the matter, and only held off making a report Tuesday in order to get additional evidence.

The members of the committee are reticent upon the matter, and Speaker Maxey, the official spokesman for the committee, will neither deny nor admit that impeachment proceedings will be recommended against Mr. Ballard, nor disclose the nature of the testimony presented to the committee.

Johnston of Roff, and Mr. and Mrs. C. H. Jones of Roff.

Delicious fruit punch was served throughout the evening.

W. C. Jones went to Center today to endeavor to interest the farmers in establishing a gin. He reports splendid encouragement at Stonewall, Francis and Saskwa in a similar movement.

### Pretty Compliment.

The Disraelis were visiting Strathfeldsaye in the time of the old duke of Wellington. Going up to the bed room, Disraeli found his wife and her maid moving the bed from one side of the room to the other. ### True Love.

Love is the purification of the heart from itself; it strengthens and ennobles the character, gives a higher motive and a nobler aim to every action of life, and makes both man and woman strong, noble, and courageous; and the power to love truly and devotedly is the noblest gift with which a human being can be endowed; but it is a sacred fire that must not be burnt to idols.

### Bible Was Put Into Rhyme.

Versifications, not only of the Psalms but of the other books of the Bible, were numerous in the sixteenth century. One of the most prolific versifiers was William Hunnis, who, under such fanciful titles as "Seven Sobs of a Sorrowful Soul for Sin," "A Handful of Honeysuckles," "A Hivelful of Honey," etc., published a number of rhyming versions of Genesis and Job, which are now worth their weight in gold to the bibliomaniac.

## MRS. M. L. WALL GETS JUDGEMENT FOR \$6,000

Tuesday afternoon the jury in the case of Mrs. M. L. Wall vs. R. N. McConnell brought in a verdict for the defendant and awarded her a judgment of \$6,000.

The case grew out of the alleged breach of contract following the purchase of the bankrupt stock of the Texas Department Store by McConnell plaintiff alleging that he did not comply with an agreement whereby under certain conditions he was to have turned the stock over to plaintiff. The amount sued for was \$12,000.

Today has been occupied with the trial of the suit of Mrs. Donahue against the American National Accident Insurance Co. in which plaintiff seeks to recover \$2,000, attorney fees and costs. The case grew out of the death of W. F. Harvey, plaintiff's father, who some months ago died shortly after receiving a severe fall while at work on a mail crane at Tyrola.

## THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow.

A harmless remedy made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for the teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden Sage and Sulphur, combined with other valuable remedies for dry, harsh, faded hair dandruff, itching scalp and falling hair. After a few applications of this simple, harmless, remedy, your hair will be gradually restored to its natural color, in a short time the dandruff will be removed, and your hair will no longer come out, but will start to grow as Nature intended it should.

Don't neglect your hair, for it goes further than anything else to make or mar your good looks. You can buy this remedy at any drug store for fifty cents a bottle, and your druggist will give your money back if you are not satisfied after using. Purchase a bottle today. You will never regret it when you realize the difference it will make in your appearance.—Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

## GROWTH OF THE CEMENT INDUSTRY

Oklahoma has the raw material to manufacture enough Portland Cement to supply the world. And this state has cement plants which are turning out enormous quantities of the building material which is quite as important as steel. More plants will be built in Oklahoma, and there is no reason why Oklahoma should not lead all other states in the manufacture of cement.

Recent years have witnessed the wonderful expansion of the use of

ments in New York show the greatest proportionate increase of all districts. In the southeastern states the increase in production and shipments was gratifyingly large, as it was also in the vicinity of Chicago, Ill., and in Iowa and Missouri.

Certain plants in Kansas were much hampered by the failure of the supply of natural gas, and were obliged to shut down temporarily while installing coalburning devices. This feature contributed to the decrease in production in the Great Plains states. In the Pacific coast states and in certain of the Rocky mountain states production did not keep pace with that of 1911, owing to the lack of demand for cement for large public works—Oklahoma.

DON'T TRIFLE WITH COUGHS OR COLDS. Many Have Filled Consumptive Graves Because They Neglected a Cough or Cold.

You never know how soon a cold will become a serious malady. It may be in the head to-day; in the lungs to-morrow and the next day you may be fighting deadly pneumonia for your life. It's much the same with a cough. Inflamed and cough-worn throat and lungs offer the best chance to consumption germs to begin their murderous work. There's only one way to prevent these deadly diseases getting a hold on you. As soon as a cough or cold attacks you, take Dr. King's New Discovery until you are entirely cured. Sometimes a dose or two will do the business, saving you suffering and a doctor's bill. Thousands of cures like these below prove its wonderful power to cure coughs and colds.

"I feel sure it's a Godsend to humanity," writes Mrs. Effie Morton,

Columbia, Mo., "for I believe I would have consumption to-day, if I had not used this great remedy." "I take great pleasure in recommending your Dr. King's New Discovery for the benefit of suffering humanity. It's a thoroughly reliable remedy for all coughs, croup and lung troubles. We have used it in our family for fourteen years with the best results. It saved my mother when two doctors gave her up. She had a very severe case of pneumonia and was in bed seven weeks and part of the time 'out of her mind' so that she did not know me. I told father to get me two 50c bottles of Dr. King's New Discovery, which he did, and on taking it she soon began to improve, and four bottles cured her entirely. You may publish this if you wish and I will answer all inquiries, with postage enclosed for reply.

"Yours respectfully, "Wm. Cogger."

**Elaborate Decorations in the Capital.** Washington, D. C., Feb. 26.—The work of decorating the capital for the presidential inauguration is well advanced and by Saturday night the elaborate scheme of decoration will be carried out in detail, making Washington a city literally ablaze with the national colors.

The decorative scheme centers in the Court of Honor, located on Pennsylvania avenue between 15th and 17th streets, and which will be occupied by the President's reviewing stand in front of the White House and the observation stand for citizens in front of Lafayette Park. The basic color scheme is white and green, the civic colors of Washington, and is embodied throughout in the stands and the surroundings.

The president's stand is designed to form a reproduction of the portico of Monticello, the home of Jefferson. The colonial front of Mount Vernon,

WOOD TRIAL PROMISES TO BE SENSATIONAL

Boston, Mass., Feb. 26.—The spectacle of the leading representative of one of the largest and wealthiest corporations in this state being tried upon the same charge as the thirty representatives of labor who a short time ago were convicted of conspiracy in Indianapolis, will be presented when William M. Wood, president of the American Woolen Company, and one of the leading textile magnates of the world, together with several alleged accomplices, will be tried before a jury in the Superior Criminal Court of Suffolk county upon the charge of complicity in the alleged "planting" of dynamite during the strike of the mill hands at Lawrence, Mass., last spring. Owing to the great wealth and prominent position of president Wood and the serious nature of the charges against him and the other defendants the case which is to begin next week and will probably last a fortnight or more, is attracting country-wide attention, particularly in labor circles where the outcome of the trial is awaited with intense interest.

The Commonwealth which, at the trial, will be represented by District Attorney Joseph C. Pelletier, charges and will try to prove that Wood and the other defendants conspired to place explosives in such a manner in the disturbed community as to discredit the striking mill operatives and turn public sentiment against them. The trial which has many unusual features, promises to be highly sensational.

The arrest of John J. Breen, a member of the Lawrence School Board, upon the charge of having planted dynamite, was the first sensation which developed in the conspiracy case during the strike at Lawrence. Breen was found guilty and after a quick trial was sentenced to pay a fine of \$500. It was then suspected that others were concerned in the matter, but it was seven months later, long after the strike had been ended, that the grand jury found indictments against Wood and several others, including Fred E. Atteaux, a dyer, Dennis J. Collins, a Cambridge dog

To The Young Expectant Mother

Women of Experience Advise the Use of Mother's Friend.

There is a certain degree of trepidation in the minds of most women in regard to the subject of motherhood. The longing to

possess is often contradicted by the inherent fear of a period of distress. But there need be no such dread in view of the fact that we have a most noble remedy in what is known as Mother's Friend. This is an external application over the muscular tissues of the abdomen. By its daily use the muscles, cords, tendons and ligaments all gently expand without the slightest strain; there is no pain, no nausea, no nervousness; what was dreaded as a severe physical ordeal becomes a calm, serene, joyful anticipation that has its impress such as our foremost teachers of Eugenics are striving to drill into the minds of the present generation.

In almost every community there are women who have used Mother's Friend, and they are the ones that recovered quickly, conserved their health and strength to thus reside over families destined by every rule of physiology and the history of successful men and women to repeat the story of greater achievement.

Mother's Friend is prepared after the formula of a noted family doctor by the Bradford Regulator Co., 138 Lamar Bldg., Atlanta, Ga. Write them for their instructive book to expectant mothers. You will find Mother's Friend on sale by all drug stores at \$1.00 a bottle.

leader of the conspiracy. His life history is unusually interesting and his rise from poverty to wealth and high position presents the elements of a remarkable romance. In the fall of 1860 Captain Peace, a whaler of Edgar town, Martha's Vineyard, brought with him to that town a poor Portuguese from Fayal, one of the Azores, who had shipped as cook on the captain's vessel. The man's name was Jacintho, but he soon changed it to Wood, in honor of a man who had befriended him and had supplied him with a fisherman's outfit. William Jacintho Wood soon married and on April 5, 1861, their eldest child, William M. Wood, was born. The boy was bright and his father tried his best to give him an education. Jacintho did not thrive in the raw New England climate and after he had worked for a few years as fisherman, cobbler and steward on one of the

Sound Boats, he died at New Bedford of tuberculosis.

William Wood, was eleven years old when his father died and he had to quit school and go to work. For three years he worked in the office of the Wamsutta mills and displayed great ability. Then he worked for three years in the mechanical department of the mills and acquired a thorough knowledge of the milling work. His next position was that of bookkeeper in J. A. Beauvais's bank. After a few years he became assistant manager of some woolen mills in Fall River. When Dr. Fredrick Ayer, the patent medicine manufacturer, was obliged to take over the Washington mills in Lawrence, because that institution could not repay certain loans, Wood was made assistant manager of that mill. He also became acquainted with Dr. Ayer's family and married the doctor's only daughter. Backed by his father-in-law's wealth, William M. Wood soon expanded his activity and with remarkable business ability succeeded in organizing the American Woolen Company upon a substantial basis and making it well paying corporation. His salary as president of the company alone is said to be \$100,000 a year and his other interests in mills and other industrial and financial institutions are estimated to be in the millions.

MRS. HOWARD WAGNER

Writes Personal Letter to Her Druggist About a Bad Cough.

Mrs. Howard Wagner of Milton, Pa., writes her druggist as follows: "For two months I suffered from a bad cold, from which I could get no relief then I began to cough and would cough until midnight every night. I consulted a doctor and took two kinds of medicine, but without benefit. One day seeing Vinol, your cod liver and iron medicine advertised in my paper, I sent for a bottle. After taking it the second day I did not cough so much and felt stronger, and at the end of a week I could go to bed and sleep without coughing once. I have now taken in all, six bottles, and I never felt better in my life. I have a fine appetite and have gained twelve pounds. As Vinol has helped me so much I want others to know about it."

The curative and strengthening properties of Vinol built up Mrs. Wagner's health and her cough disappeared as a natural result.

We guarantee that Vinol will do all we claim and will pay back your money if Vinol does not satisfy you. Gwin & Mays Drug Co., Ada, Okla. adv.
